Eurolink supply:
Telephone Lines
Telephone Systems
Non Geographic
Mobile Broadband

And also:
Hosted IT
Inbound
Connectivity
Mobiles

Resilient Broadband

In this modern world we are all incredibly reliant on connectivity as we operate with cloud based services to integrate with staff, suppliers and customers alike. It is therefore extremely important to ensure that we all have resilience in place should unforeseen circumstances arise.

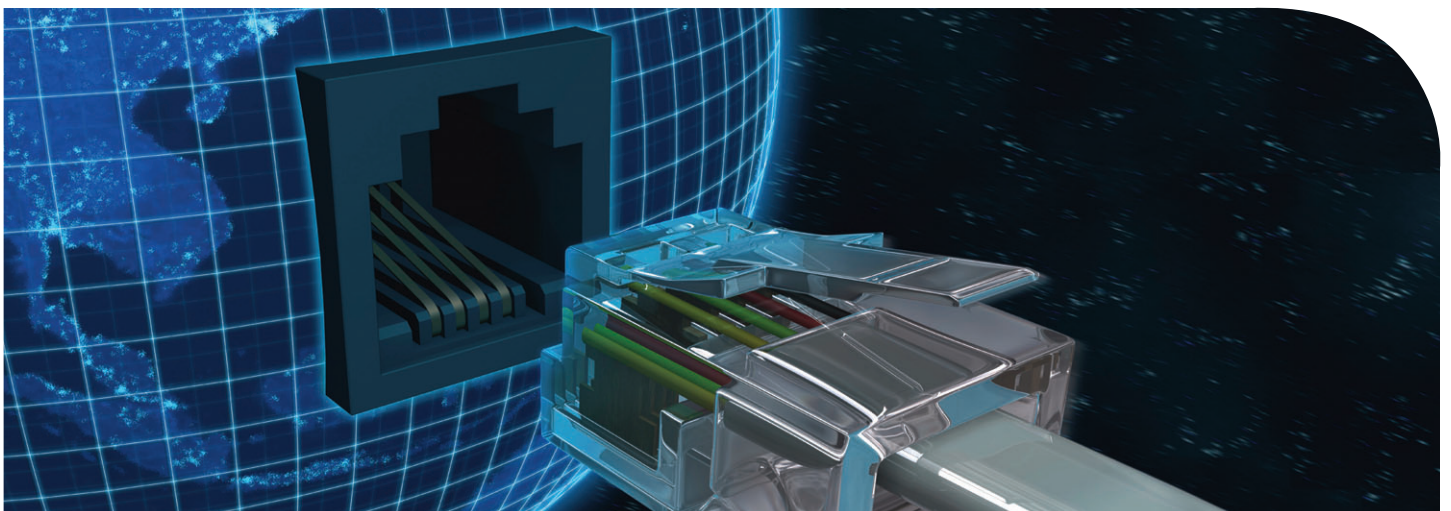

In light of this, Eurolink are launching their new Resilient Broadband Packages which come complete with Huawei backup dongle.

Depending on the size of the office this dongle can either be plugged directly into one of your computers to give that computer connectivity or alternatively it can be plugged into a router* which will enable connectivity for all computers on your network.

The question is, can you afford not to have resilience in place?

Details of packages are overleaf and if you would like to discuss in more detail please contact your Account Manager on **08450 755 500** or email orders@eurolinktelecom.com.

* Eurolink would recommend the use of DrayTek Vigor routers as they have a built-in failover option for which Huawei is compatible.

Connection type	Installation	Monthly Rental	Data Allowance
Resilient EuroStream MAX Classic Business	£60.00	£31.99	50GB
Resilient EuroStream MAX Classic Premium	£60.00	£47.99	100GB
Resilient EuroStream ADSL2+ Home	£60.00	£35.99	80GB
Resilient EuroStream ADSL2+ Premium	£60.00	£55.99	150GB
Resilient EuroStream Annex M Business	£75.00	£53.99	150GB
Resilient EuroStream Annex M Business Premium	£75.00	£87.99	200GB
Resilient EuroStream FTTC Business	£95.00	£63.00	100GB
Resilient EuroStream FTTC Business Premium	£95.00	£93.00	200GB
Resilient EuroStream FTTC Business Premium Plus	£95.00	£113.00	Unlimited

- All resilient broadband connections will be supplied with 1 x Huawei USB dongle configured to work on the O2 network.
- Minimum contract period 18 months.
- Netgear & DrayTek routers are available via Eurolink.

EuroStream Enhanced Care £15.00 per month.

Eurolink to Supply:

- Huawei dongle which can work independently as USB but is also compatible as failover on DrayTek routers
- O2 Data Sim with 1GB Data allowance each month – cost per MB thereafter is 10p

Your responsibilities:

- Check O2 coverage is available in your area
- Check your suppliers will allow access via mobile dongle
- Check your local configuration setup is compatible
